Hosur, TN

## Executive Summary

**Motivated Software Developer** with practical experience in developing responsive and dynamic web applications using **HTML, CSS, JavaScript, and MySQL**. Committed to writing clean, maintainable code and creating intuitive user interfaces. Passionate about solving real-world problems and contributing effectively within collaborative, fast-paced development teams.

## Education

Adhiyamaan College Of Engineering  
Hosur, TN  
B.E-Computer Science and Engineering  
Graduation Year 2025 | **CGPA : 7.3/10**

## Technical Skills

**Backend** : Java, Spring boot, java API  
**Frontend** : HTML, CSS, JSS, Reactjs  
**Database** : MYSql  
**Tools & Technologies** : Git, VS Code, Git Hub, IntelliJ.  
**Soft Skills** : Teamwork, Problem-Solving, Quick Learner, Communication

## Certifications

Full Stack Development - Infosys Springboard  
UI/UX Design Internship - Make Labs  
Core Java – Internshala Training

## Projects

### Doctor Patient Portal With Skin Cancer Prediction Using Deep Learning

#### Description:

Built the frontend for a web portal that connects doctors and patients, with a feature for uploading skin images to predict potential cancer risks using a deep learning model (handled on the backend). Focused on creating a clean, easy-to-use interface that worked well on both desktop and mobile devices.

#### What I Did:

- Designed and coded user-friendly pages for login, registration, and dashboard views.
- Built forms for patients to upload images and book appointments.
- Made sure the site layout was responsive and looked good on all screen sizes.
- Added clear navigation for doctors to review cases and respond to patients.
